Custom Car 31070

Designed by p-sprogis

Building Instructions by jokey02

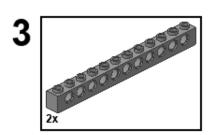

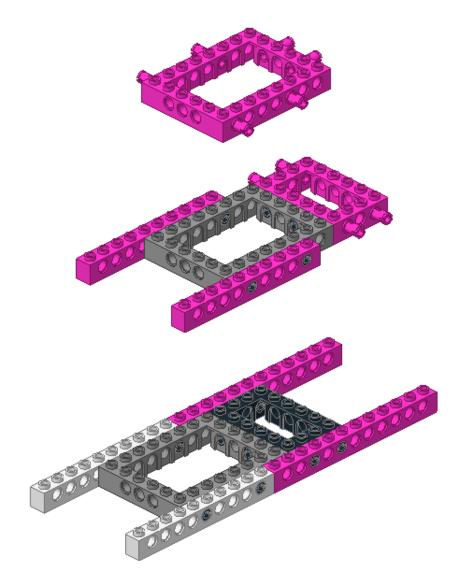

This building instructions are made to support the building of the Custum Car (31070 alternate) as designed by p-sprogis. The black crossaxle-extensions (59443) of the windshield are connected to its sides by two 2M crossaxles. Because of a bug in LDD they are not visible in this building instruction.
